SUMMARY

Flexible full-stack developer with expertise in HTML, CSS, and JavaScript for engaging web pages. Skilled in React.js for interactive interfaces and experienced in Node.js for server-side development. Proficient with web frameworks and skilled in version control for seamless collaboration across the stack.

PROJECTS

Restaurant Website | Web Application

Programming Languages: HTML, CSS, JavaScript, Bootstrap | Oct 2022 – Nov 2022

- Designed and developed a restaurant website using HTML, CSS, and JavaScript. Successfully implemented features, enhanced menu display, advanced table booking, detailed chef profiles, and latest news articles.
- Crafted a user-friendly interface with responsive design, improving navigation efficiency across various devices.

Food Ordering Website | Web Application

Programming Languages: HTML, CSS, JavaScript | Aug 2022 – Oct 2022

- Engineered a responsive and interactive food ordering website using HTML, CSS, and JavaScript. Executed pivotal features, including the implementation of Our Services, Our Happy Client section, and a Feedback Form.
- Successfully executed pivotal features, resulting in increased client satisfaction and active engagement.

Travel Website | Web Application

Library: React.js | May 2023 – June 2023

- Designed a personalized trip planning feature, enabling users to search and customize their favorite destination with activities, attractions, and accommodations using HTML, CSS, and JavaScript.
- Implemented a real-time tracking feature showcasing the number of trip plans created on the website for the current day, contributing to improved user engagement and site activity.

ACHIEVEMENTS

- Achieved a 3-star rating in Java on HackerRank from February 2022 to April 2022.
- Recognized in a hackathon for presenting an innovative idea in February 2023.
